Reminder from the Lawrence Police Department

A friendly reminder that the Non-Emergency dispatch number is 785-846-0250. Officer Zarnowiec said, "I think first and foremost it should be reiterated that persons should contact Dispatch (emergent or non-emergent) whenever they are in a situation where they want a law enforcement response, now matter how "important" the issue is perceived to be. It's been a recurring theme that people "don't want to bother us" with the little things, but the point of the downtown police assignment is exactly that: to dedicate time to the little things. If something isn't reported to us, it's very likely that we will never know about it." If the situation seems urgent, call 911. Dispatchers can determine if your call should be transferred to another agency. All other calls should be directed to the non-emergency number.
